Teorema e Shtajnerit

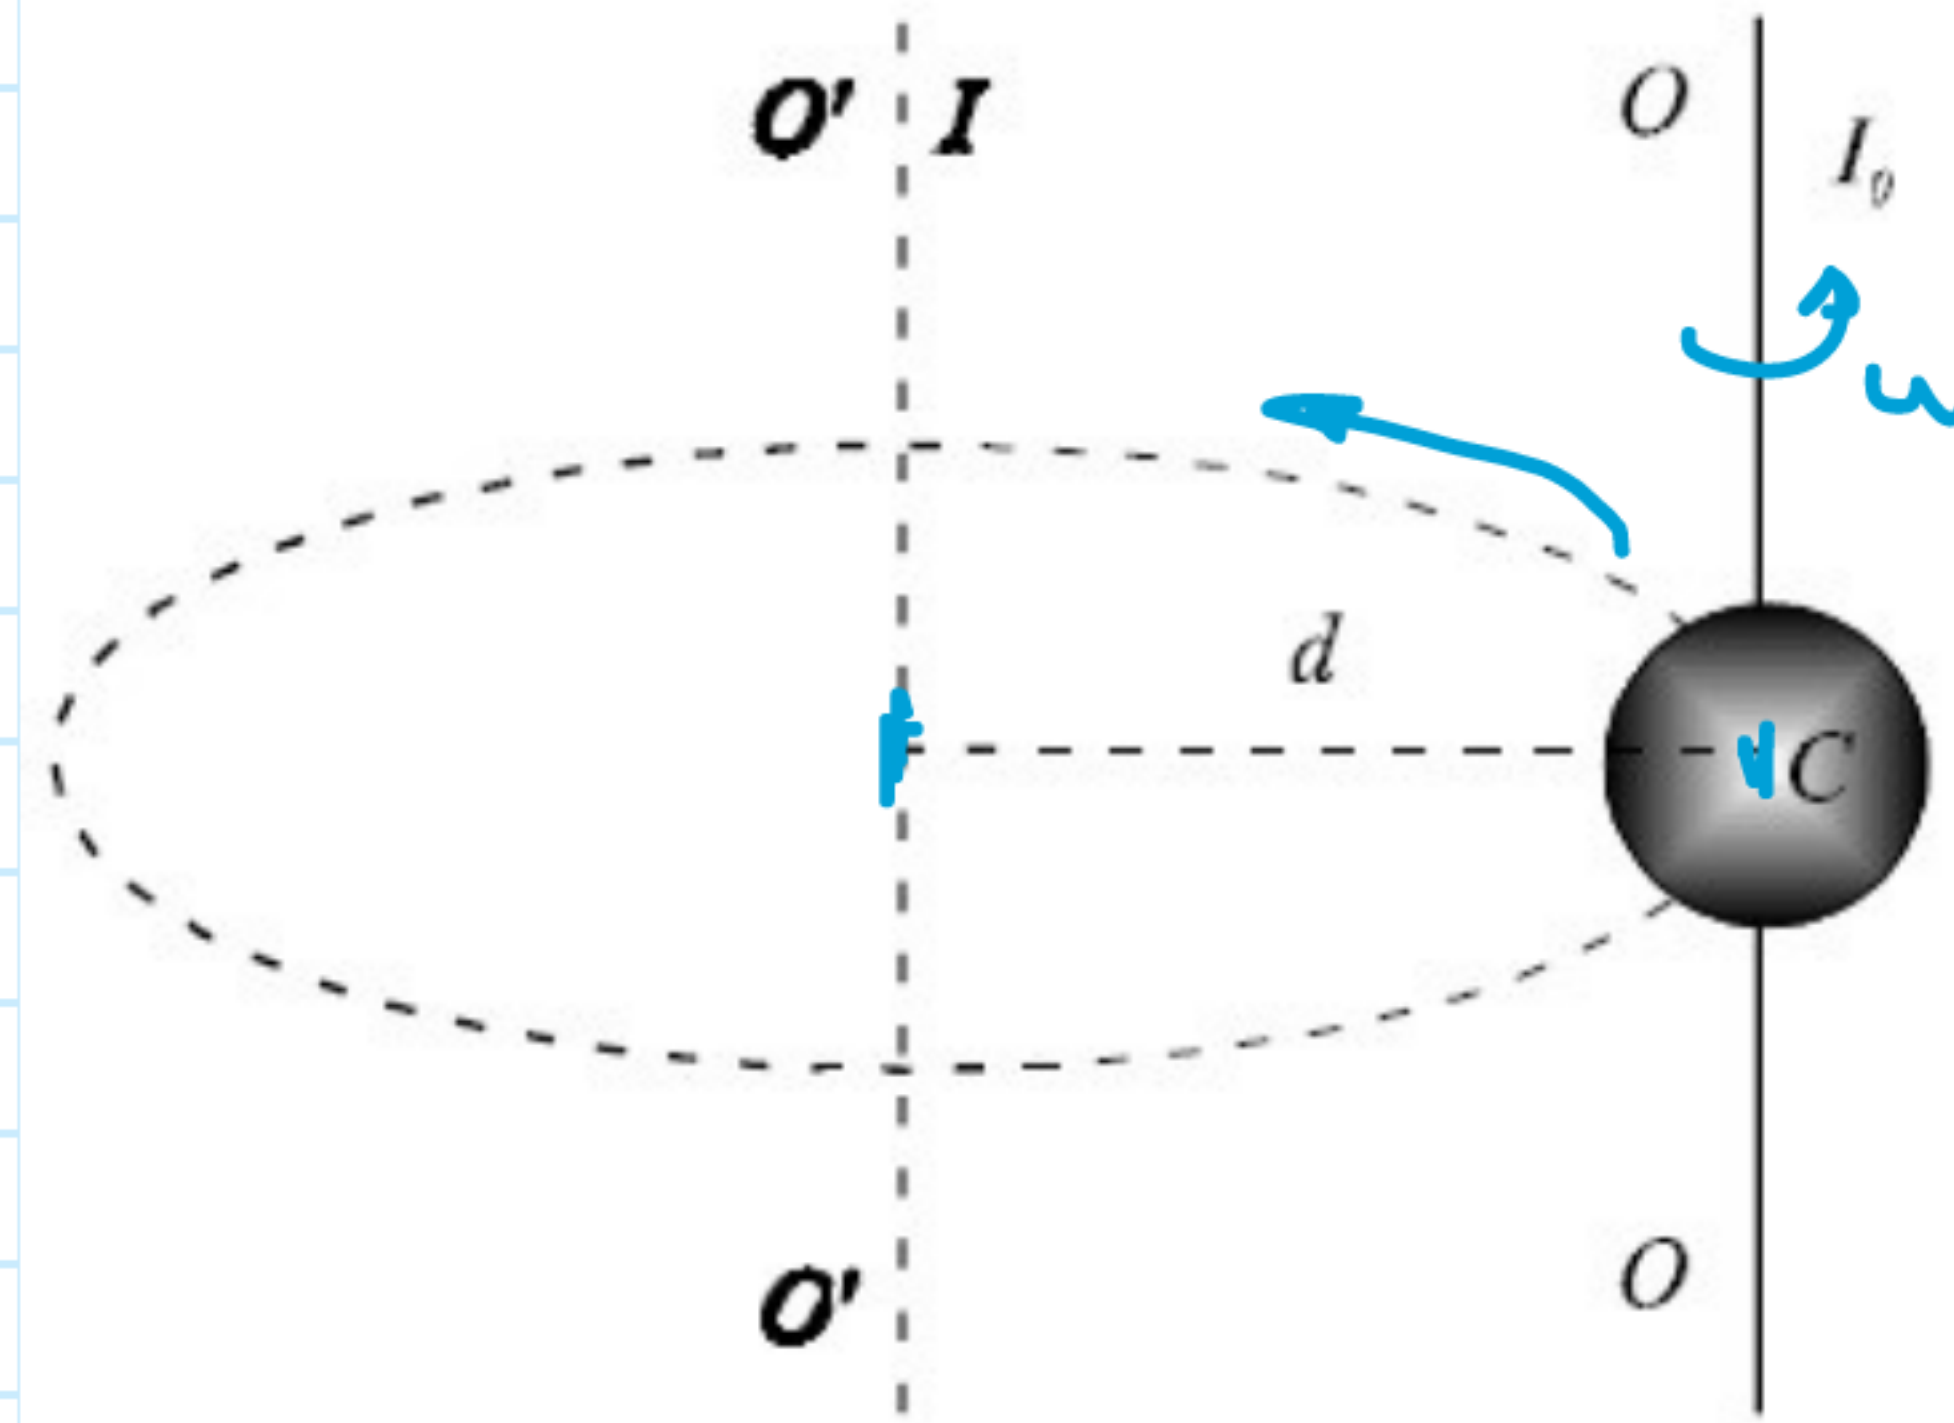

$$E = E_t + E_o$$

$$\frac{1}{2} I \omega^2 = \frac{1}{2} m v^2 + \frac{1}{2} I_o \omega^2$$

$$v = \omega \cdot r = \omega d$$

$$\frac{1}{2} I \omega^2 = \frac{1}{2} m \omega^2 d^2 + \frac{1}{2} I_o \omega^2$$

$$I = m d^2 + I_o$$

$$I = I_o + m d^2$$
